REPORT OF THE SYNOD OF BISHOPS HELD IN ROME IN OCT 2023

Point 2: Points of Agreement

The Assembly affirmed the fundamental equality and dignity of all the baptised. Many assembly members warned against the danger of ‘clericalising’ the laity by creating a kind of lay elite.

The Report stresses the need for greater participation of laity (especially women) in the life and mission of the Church and in decision-making processes at all levels.

It also calls for special attention to avoid authoritarian attitudes and clericalism. The Church needs to be better equipped in the art of listening to and collaborating with the laity on the basis of respect and equality.

The report states that there was a widespread need to make the language of the liturgy more accessible to the people.
