ENVIRONMENT CRISIS

‘Laudato Si’, the encyclical letter from Pope Francis:

“The existence of laws and regulations is insufficient in the long run to curb bad conduct, even when effective means of enforcement are present. If the laws are to bring about significant, long-lasting effects, the majority of the members of society must be adequately motivated to accept them and personally transformed to respond. Only by cultivating sound virtues will people be able to make selfless ecological commitment. A person who could afford to spend and consume more but regularly uses less heating and wears warmer clothes, shows the kind of convictions and attitudes which help to protect the environment. There is nobility in the duty to care for creation through little daily actions and it is wonderful how education can bring about real changes in lifestyle”.
